Subject: RE: CES Site

David:

I forwarded this on to James Cargas, City of Houston Attorney, that has been assisting us on this project. I am not sure that this will impact us since we are not using water from the water lines from the facility. This may impact the PRP Group (Lubrizol) when they get on-site so they should be made aware of this.

For the cleanup operations we use the following services:

Water: We get our water from a water hydrant on Grace Lane and we have a meter provided by the City. We have not needed that since early in the project.

Sewer Services: We discharged contaminated storm water to the sewer through about 12/31/14 but have not used this service since about that time.

Thanks

Gary Moore

Hal/Abigail:

I wanted to make you aware that the City of Houston has sent notices (see attached) to David A. this week stating that all water services provided to 4904 and 4904 ½ Griggs Road will soon be turned off. We stopped paying the utility bills some months ago as the estate was running out of money. Wayne wanted me to make you aware of this matter so as not to have a negative impact on the clean up efforts of the facility currently in progress.
